FORESTRY IN MYANMAR
Timber Source & Its Ownership

- All of the forests are **State owned**.
- Mostly are natural forests.
- The role of plantation is still negligible.
- Two categories of Natural Forest
  - Permanent Forest Estate (PFE)
    - Reserved Forest
    - Protected Public Forest
  - Protected Area System (PAS)

- PAS is the areas preserved and defined as national park, wildlife century, and science forests and so on.
- Commercial Timber Production is carried out at the PFE.
FORESTRY IN MYANMAR

Status of Forest Cover

- Area of the Country: 67,658,000 ha
- Area of Forest Cover: 29,041,000 ha
- Area coverage: 42.92% of the country

Status of Forest Cover in Myanmar

Source: Country Report, Myanmar (FRA, 2015)
Who is responsible for Forestry?

- On behalf of the government, MONREC is empowered for the Management, Sustainable Production & Utilization of forest products.
- Unlike other countries, Myanmar is unique in terms of forest management (regulation) and forest production (operation).
- Both regulation & operation are under the authority of the Government Organization.
- Under MONREC,
  - **Forest Department** (FD), as a regulator, is in charge of the management and conservation of forests.
  - **Myanmar Timber Enterprise** (MTE) is in charge of commercial production & sale of forest products.
Who is responsible for Forestry?

- Forest Law (1992) Chapter VI, section 18 mention as follows-

**CHAPTER VI**

**PERMISSION FOR EXTRACTION OF FOREST PRODUCE**

17. Forest produce may only be extracted after obtaining a permit. However, if it is for domestic or agricultural or piscatorial use not on a commercial scale, forest produce may be extracted in an amount not exceeding the stipulated quantity, without obtaining a permit.

18. In permitting the extraction of forest produce the Forest Department shall use the competitive bidding system if the extraction is on a commercial scale. However, extraction for the following purposes may be permitted without using the competitive bidding system:-

(a) Where extraction of forest produce and sales in and outside the country are carried out as a State-owned enterprise;

(b) Where the Minister is empowered by the Government in respect of the extraction of forest produce;

**Focal Organization:**

Ministry of Natural Resources and Environmental Conservation (MONREC)’

FD

MTE
FORESTRY IN MYANMAR

Who is responsible for Forestry?

Forest Law (1992), Chapter IX, Section 30, mentions as follows:

**CHAPTER IX**

**ESTABLISHMENT OF WOOD-BASED INDUSTRY**

30. A private entrepreneur who is desirous of establishing a sawpit, sawmill, tongue-and groove mill, plywood mill, veneer mill or a wood-based industry with the exception of wood-based cottage industries and furniture industries has the right to establish the same only after obtaining a permit from the Forest Officer empowered for this purpose.

31. The Director-General may, with the approval of the Ministers determine the rates of royalties, terms and conditions of the permit for the purpose of section 30.

**Line Organization:**
- Private Operator
- Department of Trade
- Myanmar Customs Department
- Myanmar Port Authority
CHAIN OF CUSTODY

Forest Owner → Logger → Saw Miller → Factory Owner → End User
**Chain of Custody**

- **Export**
  - MTE Shipper
  - Open Tender (Sawn+ WB products)
  - Certificate of Origin (MTE)
  - Export Licence (MOC)
  - Export declaration (Custom)
  - Bill of Lading (Port Authority)

- **Private Processing Facilities**
  - Bill of lading
  - Certificate of Legality
  - Export Licence
  - Export declaration

- **MTE Processing Facilities**
  - Sorting and grading
  - Open Tender
  - Transport to MTE/buyer

- **MTE Log Depot (Yangon)**
  - Sorting and Transport to Yangon

- **MTE Log Depot (Agency)**
  - Sorting and grading
  - Sales specifications
  - Lot preparation (ex-site)
  - Open Tender

- **Forest Felling Site**
  - Felling
  - Bucking
  - Skidding

- **Forest Measuring Point (landing site)**
  - Measuring
  - Marking
  - Transporting

- **Harvest planning**
  - AAC allocation
  - MTE harvesting Plan
  - Tree marking and mapping
  - Permission to enter

- **AAC allocation**
  - MTE harvesting Plan
  - Tree marking and mapping
  - Permission to enter
What is the System/Document to prove legality of timber or timber products?

Documents for Legality of harvest
- District Forest Management Plan (FD)
- AAC Announcement (FD)
- Harvesting permit by Cabinet and MONREC
- Annual Harvesting Plan (MTE)
- Annual Harvesting Contract between FD and MTE at the District level. (FD & MTE)
- Entry permit for each compartment within the designated forest area by FD. (FD & MTE)

Documents for Source of Origin
- Form D (log measurement book jointly measured by FD and MTE)
CHAIN OF CUSTODY

What is the System/Document to prove legality of timber or timber products?

- **Documents for Sale**
  - Specification
  - Sale Contract
  - Commercial Invoice
  - Delivery Order
  - Advanced Information for Parcel Transfer
  - Reference for Parcel Transfer
  - Purchase Confirmation Letter (If necessary)
  - Certificate of Origin (only for MTE shipper)
CHAIN OF CUSTODY

What is the System/Document to prove legality of timber or timber products?

- **Processing Documents after Sale to private:**
  - Sawmill license by FD
  - Arrival and Cutting Permit by FD

- **Export Documents for timber products by private**
  - Certificate of legality for timber products by FD
  - Export License by Department of Trade
  - Export Declaration by Custom Department
  - Bill of Lading by Port Authority
CHAIN OF CUSTODY

How is the System managed?

- FD & MTE practice the Hammer Marking system on the log for the purpose of tracing back to the source of original.

- All of the Hammer marks represent the information of Harvesting Year, Harvesting Sites, Harvested Trees & Personal In-charges.

- Numerical and Alphabetical code are used.
For example:

- SG means Sagaing Division
- D* means Shwebo Extraction Agency
- means Extraction Year of 2017-2018 fiscal year.
- GG means the parcel was sold at Gyo Gone Depot, Yangon.

**CHAIN OF CUSTODY**

**How is the System managed? (Hammer Marks on the surface of Teak Log)**

The most crucial mark
Without it, illegal

For example:

- SG means Sagaing Division
- D* means Shwebo Extraction Agency
- means Extraction Year of 2017-2018 fiscal year.
- GG means the parcel was sold at Gyo Gone Depot, Yangon.
How is the System managed?

- Moreover, all of the documents related to each log are manually recorded.
- Necessary documents for source and sale to the private are provided by MTE itself as MTE is a whole seller of logs, on behalf of the Government.
- Further documents after selling the logs to the private shall be issued by the Forest Department, and other associated departments such as Department of Trade, Myanmar Customs Department and Myanma Port Authority.
- All of the respective government organizations throughout the timber supply chain shall have responsibility of for their own actions of issuing documents.
How can verify the legality of timber or timber products?

- All of the logs extracted by MTE and counter-checked by FD shall be considered as legal as those two government organizations are responsible for sustainable management and production of forest resources on behalf of the Government.

- Every log has its unique hammer marks by FD and MTE and has been well documented in every steps of its flow such as felling, skidding, transporting, processing and exporting.

- The whole system of timber supply chain is **counter checked by the Forest Department (FD)**.

- **Third party verification** is still unavailable.
APPROACHES FOR THIRD PARTY ASSESSMENT
CERTIFICATION

- **Myanmar Forest Certification Committee (MFCC)**, as a semi government body affiliated under MONREC, is a governing body to conduct forest certification activities since 1998.

- In addition to reviewing and developing National Standards, MFCC compiled the whole timber supply chain of FD and MTE as a system so called **MTLAS in 2013**.

- In 2017, MTLAS was **gap analyzed** by the project funded by EU FAO FLEGT Support Programme.
APPROACHES FOR THIRD PARTY ASSESSMENT

Certification

- Major Findings of MTLAS Gap Analysis;
  - Transparency
  - Accessibility
  - Third Party
  - Documented
APPROACHES FOR THIRD PARTY ASSESSMENT

Certification

- Based on findings of MTLAS Gap Analysis Project, reforming FD and MTE procedures have been followed up.

- Due to market demand, only departmental documents verified by themselves are not sufficient for Operators.

- Consequently, MFCC was mandated by MONREC to initiate the third party assessment.

- So far there are four Verification Bodies recognized by MFCC and they are now under training.
Moreover, MFCC is initiating to get endorsement by PEFC.

- Engaging with the PEFC (Programme for Endorsement of Forest Certification)
- Strengthening Myanmar Forest Certification Scheme (MFCS) through the projects
- Initiating Third Party Auditing

MFCC is working closely with Myanmar FLEGT VPA process and the outcomes of the projects will support the negotiation stage between Myanmar and EU FLEGT programme.
Certification

- Allowing Operators and Third Parties to access the forest compartment and agencies since 2017.
APPROACHES FOR THIRD PARTY ASSESSMENT

FLEGT VPA Myanmar (Objectives)

- To combat illegal logging and associated trade
- To improve Forest Governance and to support Sustainable Forest Management
- To export legal timber from Myanmar to EU market
2013 Myanmar formally proposed to enter into the EU FLEGT VPA process on November.

2014 EU acknowledged Myanmar to participate in the EU FLEGT process on March.

2015 Interim Task Force (ITF) was formed with 24 members from Government, CSO and Private Sectors.
APPROACHES FOR THIRD PARTY ASSESSMENT

FLEGT VPA Myanmar(Preparation)

• 2015-2018:
  • Advocacy trip to Region and State to form the MSG
  • Awareness raising and capacity building for FLEGT stakeholders
  • Initial workshop on Legality Definition (2017 December)
  • ToR for National Level and Regional Level Multi Stakeholders Group (MSG)
  • Negotiation Road Map(Draft)
  • MSG Work plan (2018)
APPROACHES FOR THIRD PARTY ASSESSMENT

FLEGT VPA Myanmar (Pre-negotiation)

- Preparation of requirements for the negotiation phase
  1. Formation of the multi-stakeholder group (MSG) in both National Level and Regional Level
  2. Clear vision of need for VPA articulated
  3. Understanding of the broad commitments
  4. Developing negotiation road map
  5. Drafting of legality definition
  6. Ideas for contested areas and peace process
- Formation of the negotiation team
APPROACHES FOR THIRD PARTY ASSESSMENT

FLEGT VPA Myanmar (Pre-negotiation)

- First Step towards Negotiation Stage (2018 June)
  - Visit to Brussels by Myanmar Delegation (MSG)
    - Formal & Informal Meeting with
      - EU CA
      - DFID
      - FLEGT/EUTR Expert Group
      - DG of Environment
      - EIA/ NEPCon
      - EU Operators
APPROACHES FOR THIRD PARTY ASSESSMENT

FLEGT VPA Myanmar(Activities)

- Advocacy Trip
APPROACHES FOR THIRD PARTY ASSESSMENT

FLEGT VPA Myanmar(Activities)

- Allowing CSO to access the forest compartment and agencies, since 2017.
APPROACHES FOR THIRD PARTY ASSESSMENT

FLEGT VPA Myanmar(Activities)

- Introduction of Legality Definition (2017 Dec)
APPROACHES FOR THIRD PARTY ASSESSMENT

FLEGT VPA Myanmar (Activities)

- Visit to Brussels (2018 June)
Both Certification & FLEGT are under the process. (No certified forest/ No FLEGT License yet)

While implementing,

- Developing MTLAS Audit Form by MFCC
- Third Party Auditing initiated by MFCC
- Preparation of COC Dossier by FLEGT Programme
- Streamlining the existing COC system by MONREC
- Field Assessment by Operators and their representatives by MONREC
- Independent Monitoring by CSO
Both Certification & FLEGT process might support each other.
REFORM OF FORESTRY SECTOR

| 2017 | • Ban on exporting confiscated Timber.  
  • Ban on exporting timber came from conversion & conflict area  
  • Open Tender for log sale to private companies |
|      | • Revising existing forms/documents to link each other  
  • Practicing computerized system of log registration  
  • Modifying revenue hammer  
  • Hammering only the main marks  
  • Allowing operators & third party to access the forest compartments and offices |
|      | • Statement / Announcements of MONREC, FD & MTE at the websites:  
  • [www.monrec.gov.mm](http://www.monrec.gov.mm)  
  • [wwwforestdepartment.gov.mm](http://wwwforestdepartment.gov.mm)  
  • [www.myanmatimberenterprise.com.mm](http://www.myanmatimberenterprise.com.mm) |
| 2018 | • Permission to access the forest for direct buyers approved by MTE and together with 3rd party verifier registered in MFCC |
