• TWG-FR Meeting (June 2019)
  - Output 1: Sustainable production and community forests management improved
  - Output 2: Forests biodiversity protected and improved
  - Output 3: Forest Law Enforcement, and Governance Improved => Development of FLEGT Road for Cambodia

• TWG-FR Meeting (October 2019)
  (Discuss and endorsed the formation of a Sub-Working Group (SWG) on FLEGT under TWG-FR and define ToRs)
Way Forward

-Hold first meeting of SWG on FLEGT to further discuss and refine the FLEGT Roadmap, and identify 5-10 initial priority activities and stakeholders best positioned to implement them.

-Seek endorsement from DG ENV and FA/MAFF on the Roadmap, or agreement in principle to move forward with a few selected initial priority activities while the Roadmap is being finalized.

-Stakeholders submit written proposals to FAO focusing on these selected initial priority activities. Proposals undergo technical review and SWG endorsement

-Endorsed FLEGT projects are operationalized and begin implementation.
